### EDUCATION

**NORTHEASTERN UNIVERSITY**, Silicon Valley, CA

**Aug 2026 – May 2028**

- MS, Computer Science

**CALIFORNIA STATE UNIVERSITY DOMINGUEZ HILLS**, Carson, CA

**Graduated May 2024**

- BS, Business Administration, Information Systems

### PROFESSIONAL EXPERIENCE

**MACANTHONY CONSULTING**, Los Angeles, CA

**Jan 2024 - Present**

#### Software Consultant

- Gathered and documented client business and functional requirements, translating stakeholder needs into technical specifications; demonstrated requirements documentation and critical thinking across multiple concurrent engagements.
- Managed Agile sprint workflows using Atlassian Jira and HubSpot CRM for backlog tracking, task assignments, and delivery timelines; participated in sprint planning, standups, and retrospectives to ensure on-time project completion across all client accounts.
- Supported Release Management lifecycle by coordinating testing approvals, validating builds, and managing deployment readiness prior to production release via Netlify; onboarded new web technologies by evaluating compatibility, documenting supported features, and confirming pre-launch readiness.
- Leveraged AWS (S3, Route 53) and cloud deployment pipelines; applied AI-assisted tools including GitHub Copilot to accelerate delivery and improve code quality.

**PRIMORIS, ARB INC**, Indio, CA

**Jan 2026 to Apr 2026**

#### Safety Technician

- Built and maintained a digital audit tracking system in Excel and InteleX to log 600+ weekly permit/JHA reviews, producing structured compliance reports; demonstrated Microsoft Office proficiency and governance documentation skills.
- Analyzed incident data to identify repeat violation trends, recommending corrective actions that reduced violations by 25%; coordinated with engineering and risk teams to track 20+ remediation efforts to closure, reflecting cross-functional collaboration and evidence-based problem-solving.

**SCHULTZ INDUSTRIAL SERVICES**, Los Angeles, CA

**Feb 2022 to Oct 2025**

#### Safety Attendant

- Maintained continuous multi-year digital compliance records during active refinery shutdowns, interpreting live sensor data and escalating threshold alerts to supervisors and on-site personnel.
- demonstrated attention to detail, structured documentation, and clear communication of technical status to both technical and non-technical audiences.

**SPACE X**, Hawthorne, CA

**Feb 2020 – Oct 2021**

#### Propulsion Technician

- Reviewed and bought off assembly work orders against engineering drawings, flagging non-conformances and collaborating with engineers on design updates; tracked corrective actions in Atlassian Jira, analogous to CASE repository maintenance and standards governance.
- Executed proof and leak testing using digital work orders with 100% mission-critical compliance; used Git/GitHub for version-controlled documentation; operated independently and within cross-functional teams while escalating non-conformances through formal channels.

### PROJECTS

**Database Web App** | Full-Stack Developer | HTML, CSS, JavaScript, Google Apps Script, GCP|

[github.com/aakorGithub/DatabaseApp](https://github.com/aakorGithub/DatabaseApp)

- Built a full-stack business tracking app using HTML, CSS, JavaScript, and Google Apps Script with Google Sheets as a real-time backend; implemented role-based access control, inventory management for 10+ asset types, and automated data validation; reduced manual entry errors and demonstrated end-to-end ownership from requirements gathering through deployment.

### SKILLS & TOOLS

Tools: Microsoft Office (Word, Excel, PowerPoint), Atlassian Jira, HubSpot CRM, AWS (S3, DynamoDB, Route 53), Git/GitHub, GitHub Copilot,

Docker, Cisco Packet Tracer, Tableau, Power BI, Figma, MongoDB, MySQL, PostgreSQL

Languages: JavaScript, TypeScript, Python, Java, C++, SQL, HTML, CSS, React, Node.js, GraphQL, Bash, PowerShell

Skills: Agile/Scrum methodology, requirements gathering, technical documentation, vulnerability remediation tracking, governance and compliance reporting, network architecture, Active Directory, CI/CD pipelines, cloud concepts (AWS, AI tooling), process improvement, stakeholder communication, cross-functional collaboration
